

Addendum 2

LA01/2017/0446/LBC

Listed Building Consent

Update

1.1 There have been 2 further objections and 1 letter of support to this Listed Building Consent (LBC).

Objections

2.1 While both these objections are submitted in relation to the listed building consent, the matters raised within the letters are more relevant to the planning application as the LBC only considers impacts on the listed building. However, these issues are fully addressed under the second addendum to the full planning application LA01/2017/0689/F.

Support

3.1 The letter of support states that this proposal will bring the building back into use through retention and refurbishment, and the hotel will add to the tourism offer and benefit the local economy.

Recommendation

4.0 That the Committee note the contents of this Addendum and agree with the recommendation to refuse, as set out in paragraph 9.1 of the Planning Committee Report.
