

**CONSULTATION SCHEDULE – 12 FEBRUARY 2019**

1.	RECEIVED FROM	TITLE	SUBMISSION BY
	DAERA	Invitation to contribute to scoping a new forestry plan for North West forests and woodland	1 March 2019
<p>Forest Service invites you to participate in the scoping of a new forestry plan in relation to forests and woodland in the North West Forestry Planning Area.</p> <p>Opportunities identified in the North West scoping document are very similar to those in the Sperrin and Antrim scoping documents. If you have responded to the Sperrin or Antrim scoping engagement, and your engagement responses are applicable to forestry in Northern Ireland in general, they will be considered as being relevant to North West forests and woodland, and a further response will not be anticipated. However, specific comments and information in relation to North West would nonetheless be appreciated.</p> <p>The North West scoping engagement commenced on 25 January 2019 and will conclude on 1 March 2019. The scoping document and further information can be found on the DAERA website:</p> <p><a href="https://www.daera-ni.gov.uk/consultations/scoping-new-forestry-plan-north-west-area-forests-and-woodland">https://www.daera-ni.gov.uk/consultations/scoping-new-forestry-plan-north-west-area-forests-and-woodland</a></p> <p>The survey can be found in Citizen Space:</p> <p><a href="https://consultations.nidirect.gov.uk/daera-forest-service/scoping-a-new-forestry-plan-for-north-west">https://consultations.nidirect.gov.uk/daera-forest-service/scoping-a-new-forestry-plan-for-north-west</a></p>
