

Addendum

LA01/2019/0474/F

Full Planning

Update

An email was received on 22nd August 2019 seeking clarification on Section 5.0 of the Planning Committee Report, and in particular 5.1 which states that a total of 64 neighbour notifications were issued.

These notification letters were issued in response to receiving amended plans with a revised description to those individuals who had already made representations. There were no neighbour notification letters issued on receipt of the application, as no neighbours qualified to be notified under the statutory requirement set out in Article 8 of The Planning (General Development Procedure) Order (Northern Ireland) 2015.

Recommendation

That the Committee note the contents of this Addendum and agree with the recommendation to Approve, as set out in paragraph 9.1 of the Planning Committee Report.
