## **1.0 Purpose of Report**

**The purpose of this report is to review the Landfill Communities Fund (LCF) Policy.**

## **2.0 Background**

In Feb 2016 Council agreed the Landfill Communities Fund Policy. The policy sets out a framework for the processing of Landfill Communities Fund applications. The overall aim of the process outlined in the policy is:

*“To ensure a consistent and transparent process with proper and accountable procedures is in place”.*

In April 2016 Council agreed the Ulster Wildlife Trust as the Environmental Body to administer the fund. The LCF Policy is reviewed annually by Council.

### **Policy Review 2019**

The purpose of the Landfill Communities Fund Policy is to outline the agreed approach to approval of the funding in relation to LCF applications. In determining the policy Council should be mindful of the likely remaining life of the Craighullier landfill site. It is expected that the site will operate for a further 4 years with an annual reduction in tonnage going to the site as it nears closure. This will impact on the amount of funds available through LCF which will reduce accordingly each year as the tonnage going to landfill is reduced.

A desktop review of the policy has been carried out by Council’s Funding Unit and Ulster Wildlife. No policy changes are recommended.

The expected value of the fund for 2020/21 is in the region of c£110k net of fees.

The Landfill Communities Fund Policy is attached as **Annex A**.
