1.0 Purpose of Report

The purpose of this report is to inform members of the Covid19 grant programmes which were managed and administered by Council on behalf of Government Departments and external funders.

2.0 Background

In response to the Covid19 Pandemic Government Departments and funders moved quickly to make funding available to support the grass roots response to supporting vulnerable, isolated and elderly people and also to make funding support available for the local Business Community. Council's Funding Unit were responsible for the administration and management of the Covid 19 Grant programmes.

3.0 Covid-19 Community Support Grant Programmes

The Department for Communities made £80,700 of funding available for the first strand in April 2020.

The primary focus of the Department was to ensure that financial interventions targeted those citizens most in need of urgent support. The funding was provided to assist council in supporting voluntary and community organisations undertaking actions in response to the coronavirus pandemic.

The Department for Communities directed that the funding to align to the broad Community Support Programme objectives and support actions in line with the following interventions:

- + Financial to those on low income and at risk due to financial stress.
- + Food access to food (whether due to cost or availability) for those most in need.
- **Connectivity** to those living alone or in in rural and border areas that are likely to experience greater challenges in accessing services.

The Fund first opened on 8th April 2020 and remained open until all funds had been allocated. The following 3 strands closely followed strand 1 and upheld the same 3 key criteria. They remained open until the funding available under each strand was fully allocated.

Applications to the fund were invited through Council's online funding hub. Applicants could apply for up to £2,000 and organisations were permitted to submit applications under each of the 4 strands. Guidance notes and criteria were developed and advertised through a variety of mediums including social media, twitter, and Council's website. All previous grant applicants to Council were emailed and advised of the fund. All community and voluntary sector organisations registered with Councils Community Development Section were emailed and advised of the fund and local community networks were also advised of the fund.

4.0 Covid-19 Business Revitalisation Grant Programme

The Covid-19 pandemic resulted in many businesses in our local towns having to stop trading and relying on the various Covid-19 emergency support schemes to survive.

A financial aid package including £340,000 from the Department for Communities for investment in urban settlements with a population of 5000 or more along with £109,000 from the Department of Agriculture, Environment and Rural Affairs (DAERA) aimed at smaller settlements was provided to Council to support businesses within the Causeway Coast and Glens Bough Council area.

The fund was established to address the challenges presented by the public health safety measures which are required for businesses to operate safely and for members of the public to feel safe. Applicants were able to apply for grants of up to £1,500. (£500 for PPE and £1,000 for small items of capital)

The Fund opened on Monday 03/08/2020 and remained open until all funds had been allocated:
