1.1 Background

Department for communities (DfC) requires Council to record and publish statistics regarding the payment of supplier invoices with specific reference to two distinct measures namely invoices paid within 10 working days and invoices paid within 30 calendar days.

1.2 Detail

These figures are published on a quarterly basis by DFC with Councils required to do likewise. The purpose of the statistics is to encourage Councils to support businesses especially those local and/or small businesses for whom cash flow is of vital importance to their continued survival. In addition as part of Council's performance improvement plan for this year the payment of our suppliers has been identified as one of the performance improvement objectives with a target of 90% of suppliers being paid within 30 calendar days. The tables below detail Council's performance since April 2018 the latest data being for quarter 1 of 21/22 year being up to and including end of May 2021. This is a significant improvement on prior years with 72.00% of invoices being paid within 10 working days and 92.26% of invoices being paid within 30 calendar days. There is now a sustained improvement in these figures which is to be welcomed and is due undoubtedly to the efforts of all staff who process invoices and receive goods but in particular to the Accounts Payable team who have, in very trying circumstances, performed extremely well during the last couple of years.

1.3 Improvement Actions

Whilst the improvements above are most welcome Council cannot afford to rest on its laurels. There is still room for improvement as other Councils have performance that is higher that Causeway Coast and Glens Borough Council therefore we must now strive to firstly maintain this level of performance and with the implementation of a new finance system seek to identify efficiencies in our processes especially where the new technology can offer electronic solutions to manual tasks.
