Northern Ireland Fire and Rescue Service had the following comments to make in relation to the application:

- 1) The floor plans show both escape routes from the public bar have inward opening doors and this is not appropriate for an occupancy of 100 persons.
- 2) The single door leading to the rear escape from the public bar should be a minimum of 750mm or 900mm where wheelchair users are likely to use it.

The applicant has been advised to resolve these issues before an entertainments licence would be issued.

Recommendation

It is recommended to Grant an Annual Indoor Entertainments Licence subject to compliance with any recommendations of the Council's Licensing Department and NIFRS.

1. The control limits set at the mixer positions shall be adequate to ensure that the Music Noise Level (MNL) shall not exceed 65 dB(A) over a 15 minute period at noise sensitive premises between the hours of 09:00 and 23:00.
2. Between the hours of 23:00 and 01:00 the control limits set at the mixer positions shall be adequate to ensure that the Music Noise Level (MNL) shall not exceed the background noise level by more than 10dB(A) over a 15 minute period at the nearest noise sensitive receptors.
3. The licensee must have a procedure in place for the receipt of complaints regarding noise and must take appropriate action to resolve such complaints expediently.
4. All staff must be aware of the noise limits set and must ensure that any instructions regarding noise are implemented.
