Rural Needs Assessment (RNA)	Screening Completed	Yes/No N/A	Date:
	RNA Required and Completed:	Yes/No N/A	Date:
Data Protection Impact Assessment (DPIA)	Screening Completed:	Yes/No N/A	Date:
	DPIA Required and Completed:	Yes/No N/A	Date:

1.0 Purpose of Report

- 1.1 The purpose of this report is to advise members of the recent publication of Noise Complaint Statistics for Northern Ireland 2020-2021 by the Department of Agriculture Environment and Rural Affairs (DAERA).

2.0 Background

- 2.1 DAERA publishes noise complaint statistics to inform central government, district councils, the general public and any other interested parties as to the number and nature of noise complaints received each year by district councils across Northern Ireland. The report for 2020-2021 can be found at <https://www.daera-ni.gov.uk/publications/noise-complaint-statistics-northern-ireland-2020-2021>
- 2.2 The DAERA report analysed noise complaint data supplied by all 11 councils between 1 April 2020 and 31 March 2021. During this period 10,494 noise complaints were received in Northern Ireland of which 5.3% were received by Causeway Coast and Glens Borough Council (553 noise complaints).
- 2.3 During 2020-21 the total number of noise complaints received across Northern Ireland decreased by 7.6% from the previous year. Despite this reduction eight out of eleven District Councils reported an increase in total noise complaints for this reporting year with many indicating this was a result of large proportions of the population working from home and spending more time at home in general. Noise complaints for certain sectors saw a significant increase compared to the previous reporting year. Complaints related to transport were up by 41%.
- 2.4 During 2020-2021 there was a 63.2% decrease in the number of noise abatement notices served by Councils (210 compared to 570 served in 2019/20). Two prosecutions took place during 2020/21, compared to four prosecutions in 2019/20 and five in 2018/19.
- 2.5 The information in this report is an important indicator of the increasing public awareness of noise issues and the effectiveness of current noise controls. However, the impact of the COVID-19 restrictions on the reporting of this year's statistics should be borne in mind.
- 2.6 The statistics provided by district councils enable the Department of Agriculture, Environment and Rural Affairs to target policy development, such as through the application of the powers in the Noise Act 1996 following the introduction of the Clean Neighbourhoods and Environment Act (Northern Ireland) 2011 in April 2012
- 2.7 Causeway Coast and Glens Borough Council's Environmental Health team continues to participate in the Nightsafe initiative in partnership with NIHE, Ulster University, PSNI and the local community. Council Officers and the PSNI carry out joint patrols of residential student areas in Portrush/Portstewart

between the hours of 9pm and 4am. These patrols are undertaken during the University's academic semester and focus on issues such as noise, antisocial behaviour, littering, drinking in public places, personal and property safety.

- 2.8 Council subscribes to the Noise App which is free to download and enables real time audio recordings to be submitted directly to Councils Environmental Health team as part of ongoing noise complaint investigations. Further information on the Noise App can be found on Council's website at <https://www.causewaycoastandglens.gov.uk/live/health-and-built-environment/environment-health-and-well-being/environmental-protection/noise-control/recording-noise-nuisance-the-noise-app>

3.0 Recommendation

It is recommended that the report be noted.
