

Addendum

C/2013/0497/F

Full Planning

Update

Four further objections have been received since publication of the Planning Committee Report. These seek to restate the issues raised in previous objections including design and the alleged right of way.

The Planning Committee Report addresses the issues raised in previous objections. Consideration of the right of way issue is set out in paragraph 8.31. As the Council has resolved not to assert a public right of way at this location further consideration of this issue is not required. One of the objections expresses dissatisfaction with the decision not to assert a public right of way at this location. However, this is a matter for the Leisure and Development Committee to consider.

Recommendation

That the Committee notes the content of this addendum and agrees with the recommendation to approve as set out in paragraph 9.1 of the Planning Committee Report.
