

Erratum

LA01/2019/0091/F

An amendment is required to two conditions due to the specification of an incorrect condition number.

1. Condition 24 states,

“No site works of any nature or development shall take place other than in accordance with the programme of archaeological work approved under condition L15a.”

Reason: to ensure that archaeological remains within the application site are properly identified, and protected or appropriately recorded.

This should state,

“No site works of any nature or development shall take place other than in accordance with the programme of archaeological work approved under condition 23.”

Reason: to ensure that archaeological remains within the application site are properly identified, and protected or appropriately recorded.

2. Condition 25 states,

“A programme of post-excavation analysis, preparation of an archaeological report, dissemination of results and preparation of the excavation archive shall be undertaken in accordance with the programme of archaeological work approved under condition L15a. These measures shall be implemented and a final archaeological report shall be submitted to The Council within 12 months of the completion of archaeological site works, or as otherwise agreed in writing with The Council.”

Reason: To ensure that the results of archaeological works are appropriately analysed and disseminated and the excavation archive is prepared to a suitable standard for deposition.

This should state,

“A programme of post-excavation analysis, preparation of an archaeological report, dissemination of results and preparation of the excavation archive shall be undertaken in accordance with the programme of archaeological work approved under condition 23. These measures shall be implemented and a final archaeological report shall be submitted to The Council within 12 months of the completion of archaeological site works, or as otherwise agreed in writing with The Council.”

Reason: To ensure that the results of archaeological works are appropriately analysed and disseminated and the excavation archive is prepared to a suitable standard for deposition.
