

Addendum

LA01/2016/0046/F

Update

Further information was received from an objector on 27 March 2018. This states that the narrowing of the Ballykelly River is causing the river to back up and the embankment to fall away. The representation asserts that this may cause problems to no. 61 Loughermore Road.

However, Rivers Agency has already considered the narrowing of the river and are satisfied. The matters raised are of a civil rather than planning nature.

Recommendation

That the Committee notes the contents of the Addendum and agrees with the recommendation to refuse, as set out in paragraph 9.1 of the Planning Committee Report.
