1.1 Background

Department for communities (DfC) requires Council to record and publish statistics regarding the payment of supplier invoices with specific reference to two distinct measures namely invoices paid within 10 working days and invoices paid within 30 calendar days.

1.2 Detail

These figures are published on a quarterly basis by DfC with Councils required to do likewise. The purpose of the statistics is to encourage Councils to support businesses especially those local and/or small businesses for whom cash flow is of vital importance to their continued survival. In addition as part of Council's performance improvement plan for this year the payment of our suppliers has been identified as one of the performance improvement objectives with a target of 90% of suppliers being paid within 30 calendar days. The tables below detail Council's performance since April 2016 the latest data for the early part of quarter 3 of 2018/19 being up to and including early November 2018. Q4 performance has deteriorated significantly from previous figures and is no doubt largely due to a vacancy existing within the service area since November. Attempts thus far have not resulted in successful recruitment.

1.3 Improvement Actions

Whilst the recent drop performance in comparison to previous periods is unwelcome council officers continue to seek improvements to overcome these difficulties and ultimately improve the performance. As previously reported finance staff are continuing with the setting up of electronic systems which will remove the need to have invoices transported around all of our offices for verification and authorisation. The electronic system will produce significant improvements in the payment figures.
