

# Addendum

## LA01/2016/0127/F

### 1.0 Update

- 1.1 At paragraph 8.45 of the Planning Committee Report it was noted that the submitted Slope Stability Survey advises that the reprofiling of the embankment (eastern) would be sufficient to achieve stability and mitigate the risk of water ingress causing instability to the embankment.
- 1.2 It has not been demonstrated that these remedial works have been carried out in accordance with the Slope Stability Survey. Therefore, to ensure the integrity of the lake embankment and in the interest of public safety, the following planning condition to ensure the re-profiling works are carried out in accordance with the Slope Stability Survey is required as part of the planning approval.
- 1.3 Condition 15

Within 3 months of the date of this approval, the applicant shall carry out and complete the remedial reprofiling of the eastern embankment of lake 2 as identified on drawing 06 Rev 03, in accordance with the 'Proposed Embankment Profile (SK-6124-02) Drawing contained at Annex 1 of Slope Stability Survey, dated 08/10/21.

Reason: To ensure the integrity of the lake embankment and in the interest of public safety.

### 2.0 Recommendation

- 2.1 That the Committee note the contents of this Addendum and agree with the recommendation to **approve** the proposed development in accordance with paragraph 1.1 of the Planning Committee Report.
