To whom it may concern,

RE: LA01/2022/0323/O - Lands North of 99 Carnbore Road, Liscolman – supporting information

The purpose for a new dwelling on the farm relates to wanting to have my sister, Anne, and her husband, Jonny, living closer to me and, in particular, my elderly parents. My parents are now in their early eighties, so having Anne close by as they grow older and require more assistance, would be essential for myself and them. Furthermore, myself and my wife have [REDACTED] and as we have [REDACTED], having Anne, Jonny and their children close by to help with the farm if I was unable to work, would be a great comfort. Anne and her family have been wanting to move to be closer to our parents for some time now, especially as Anne is a teacher in the local Ballymoney area (at Dalriada School). With Anne moving back to the area where she grew up, she would be able to become involved again with the local community and have more time to assist with after school activities.

Thank you for taking the time to read this statement and consider the planning application. If you require anything further, please let me know

Kind regards

John
