

# Causeway Coast & Glens Borough Council

To: Environmental Services Committee

IMPLEMENTATION OF BUS SHELTER GUIDELINES

4 AUGUST 2015

For Decision

Report to Committee

<b>Linkage to Corporate Plan</b>	
<b>Strategic Priority</b>	Harmonisation of Bus Shelter Provision
<b>Objective</b>	Consistency Across Borough
<b>Lead Officer</b>	Gareth Doyle
<b>Cost: (If applicable)</b>	Approximately £5,000 for each new bus shelter constructed Approximately £10,000/annum bus shelter maintenance costs

## 1.1 Background

Guidelines for the provision of bus shelters were presented to members in May and June 2015. Members discussed whether or not Council should continue to provide bus shelters. A decision was deferred pending further information on usage of the existing stock of shelters. It was agreed that the 8 proposed shelters currently at the request stage are to be progressed pending the outcome of the process as stated in the proposed guidelines.

## 1.2 Detail

Figures have been provided by Translink for Ballymoney, Coleraine and Moyle areas (Appendix 1). It is hoped that figures will be available for Limavady in time for the committee meeting.

## 1.3 Recommendation

Two recommendations

- 1) It is recommended that Council decide whether or not to provide further bus shelters.
- 2) In the event that Council decide to continue to provide bus shelters then the attached guidance (Appendix 2) should be approved to ensure consistency and fairness in the decision making process.
