**North-West Multimodal Transport Hub  
Public Consultation  
Have Your Say**

*Deadline for feedback – Friday 20<sup>th</sup> January 2017*

Dear David,

Translink is working together with partners in the Department for Infrastructure, Department of Transport, Tourism and Sport, Derry City & Strabane District Council, Donegal County Council and Sustrans to deliver the North-West Multimodal Transport Hub; a major new active and sustainable transport facility which will transform travel and heritage regeneration in the region.

Situated on the former iconic Waterside Station site, the new Hub will be an important gateway to the North-West; it will encourage a modal shift from car to public transport and other sustainable modes by providing integrated and convenient services to encourage more active travel for a healthier region – supporting a key outcome of the draft Programme for Government.

Proposals include restoration and refurbishment of the former listed Waterside Railway Station, new platforms, an enhanced Park&Ride, an Active and Sustainable Travel Centre, demolition of the current train station, a new bus turning circle, Greenway link to the City Centre via the Peace Bridge as well as Track, Signalling and Telecoms work.

We are now launching a public consultation inviting you to share your views to help develop Hub proposals and we encourage you to get involved. There are many ways you can provide feedback –
