## **1.0 Purpose of Report**

- 1.1 The purpose of this report is to consider potential replacement Borough boundary signage and agree budget allocation. 18 locations on the Borough boundary have been identified as sites for replacement signs. The locations identified are spread around the edge of the Borough on main routes. The potential locations for signposting can be broken down into 2 categories (A roads & B roads).
- 1.2 A plan of the potential locations can be seen in Appendix 1. Existing signage photographs 1-4, and possible replacement sign designs have also been attached for reference and can be seen in Appendix 2.
- 1.3 The Committee is asked to consider the proposed locations and cost implications for such signage.

## **2.0 Background**

- 2.1 Council has previously approved its corporate brand and as part of the implementation of the new Council brand, boundary signage which still bears the legacy councils' brands is a priority for rebranding.

## **3.0 Proposals**

There are currently signs located on 8 A roads and 10 B roads in the Borough.
