Outline Planning Permission

Update

The agent submitted additional information to Planning following the completion and circulation of the Committee Report. This comprises a letter from Mr Aidan McCann. This letter advises that:

- He has supplied Mr Darren McGill (applicant) with livery ranging from one to four horses over the period of the last six years.

While this information indicates that Mr McGill has been supplied livery, it does not demonstrate that there has been the commercial scale of activity required to satisfy the policy requirements of CTY 10 of PPS 21 Sustainable Development in the Countryside. Therefore the recommendation to refuse remains as before.
