The Head of Planning delivered the report, circulated, summarised as undernoted:

3.0 OFGEM E-SERVE - Draft Guidance on closure of the Scheme

3.1 Ofgem, the body that administers the NIRO in NI published draft guidance on 24th March 2016, circulated at Appendix 1 This covers how they will administer the early closure of the NIRO and the grace periods that will be available when the closure comes into force. The closing date for feedback is 21st April 2016.

3.2 It should be noted that this is not a consultation on the content of the guidance or the policy underpinning the Renewables Obligation. It explains how the early closure will be administered, the grace periods that will be available and the process for applying and information required.

3.3 One of the key qualifying criteria for support under the NIRO from 1st April 2016 will be demonstrating that planning permission was in place at the qualifying date or that if planning permission had expired and construction had started before the expiration date that no planning conditions had been breached.

3.4 In planning terms the clearest way to achieve this would be for the developer to submit a Certificate of Lawful Development Existing, where Council would consider:

Have all pre-commencement conditions been discharged? (Developer should be able to submit written confirmation from Council/DOE that the relevant pre-commencement conditions have been discharged).

Are the works carried out lawful under the planning permission granted and has a material start been made? (site inspection by Council and/or photographic evidence from the developer); and

3.5 If the developer could satisfy both of these then a certificate would be issued stating that the development carried out is lawful under the permission granted; that development has commenced within the required time period; and, that no pre-commencement conditions have been breached.

3.6 It should be noted that Certificates of Lawful Development Existing would require a full planning application fee.

IT IS RECOMMENDED that Members note the content of the report and agree to Head of Planning responding to DETI on behalf of Council along the lines of paragraph 3.4 above.

It was **AGREED**: that Members note the content of the report and agree that the Head of Planning respond to DETI on behalf of Council along the lines of paragraph 3.4 above.
